Subject

Techno Commercial Offer for Design Supply of PEB Building.

Introduction

We Thank you for valued enquiry for Pre engineering building Steel Structure and giving us opportunity to submit a Proposal to your valuable project in a cost-effective manner.

This Proposal to you is based on steels standard design criteria and specifications. However, the overall dimensions and layout are in General accordance with your enquiry or Drawings Given by you.

Kindly note that we have tried our utmost to assure that this proposal meets all your project requirements and specifications. However, in some case we had to make some assumptions, suggest certain deviations and exclude some items that you may have requested.

We hope you will find the same in order, awaiting your kind reply & esteemed order.

Sincerely Yours,

Building Specification

Frame Type	PEB Frame	End Frame Condition	Non-Expandable
Width	10	Length	5
Clear Height	4	Width Module	AS PER DESIGN
Roof Slope	1:10	Opening	AS PER DESIGN
Sidewall Bay Spacing	AS PER DESIGN	Endwall Bay Spacing	AS PER DESIGN
Brickwall Condition	hguj	Canopy	AS PER DESIGN
Roof Sheetting	0.5 mm Bare PPGL	Wall Sheetting	0.5 mm Color PPGL
Gutter	Standard Eave Gutter	Down Take Pipe	PVC
Bracing Type	X Bracing	Fascia	N/A
Future Expansion	14		

Design Code

Design and Wind Load Application	MBMA-2012, Design According to AISC-2010	Seismic	IS 1893:2005 (Part-I)
RF	4	Importance Factor	1
Seismic Zone	Z-III	Seismic Coefficient	0.16

Design Load

Dead Load	4	Live Load	7
Wind Load	4	Column Load	1
Collateral Load	741	Crane Load	N/A
Mezzanine Load	N/A		

Mezzanine

Mezzanine Area	Mezzanine Load
Thickness of Slab	Live Load
Additional Load	Stair Case
Deflection	Top of Slab
Shear Stud	

Crane Detail

Crane Required	Yes	Capacity	N/A
No. of Cranes	1	Span	
Trolley/Hoist Weight		Crane Weight	
Wheel Load		Wheel Base	
Run Length		Top of Crane Beam	
Type	Electric Overhead Traveling (EOT)		

Roof Accessories

DESCRIPTION	SIZE	QUANTITY	LOCATION
jhv,	74	1	lh

Wall Accessories

DESCRIPTION	SIZE	QUANTITY	LOCATION
kh	4	1	jhd

Applicable Codes & Standards

Structural Design

- Loads on the building are applied in accordance with: MBMA & AISC-2012
- Hot rolled Sections and built-up Sections are designed in accordance with: AISC-1989; AWS D1.1M-2006
- Cold formed members are designed in accordance with: AISI
- Welding is applied in accordance with: Structural Welding Code - Steel (AWS D1.1M: 2006)
- Wind Speed is calculated in accordance with: IS 875 (Part 3): 1987
- Seismic Load is calculated in accordance with: IS 1893 (Part 1): 2002

Primary Structural Members

- Paint Application: Epoxy DTM Paint with Airless Spray System
- 100 Micron DFT
- MS Bolt (Black unpainted)

Secondary Structural Members

Pre-galvanized

Secondary Structural Members

Pre-galvanized

Material Specification for Building

NO.	ITEM	SPECIFICATION	MAKE	YIELD STRENGTH	QTY	UNIT	RATE	AMOUNT
1	hm	hjfg	hghg	75				

Design Weight Summary

DESCRIPTION	WEIGHT	UNIT	REMARKS
ghcm	8	MT	76

Contract Price

SR. NO.	DESCRIPTION	UNIT	QTY.	AMOUNT
---------	-------------	------	------	--------

Pricing Summary	
Subtotal	₹ 65.00
Discount	-₹ 4.55
GST (18%)	₹ 10.88
GRAND TOTAL	₹ 71.33

AMOUNT IN WORDS Rupees Seventy One and Paise Thirty Three Only

Special Technical Assumptions

- 1) Crane 10MT EOT Considered in both of the module and Running in Full length.
- 2) Crane Data need to be confirmed before Finalised with Crane Vendor.
- 3) 1 Nos. Cage ladder considered for Roof Access.
- 4) Rolling Shutter.

Payment Terms

Supply Payment Terms:

30 % advance with your confirm Work Order,
30 % against GA drawing approval,
35 % against dispatch of structure from our work shop,
05 % after Handover the Project.

Change orders/revisions will be negotiated separately.

Address

Delivery Schedule

Starting date of work will be counted from the date of receipt of your Work Order along with advance payment.

Finalization of drawings will be done within 7 to 10 days after receipt of Work Order.

The above delivery schedule may be affected due to unavoidable circumstances beyond our control.

Delivery of Material:

6-8 Weeks after GA Approval.

Erection:

8-10 Weeks after Material Supply.

Other Commercial Terms

- 1 Proposal Validity: 30 Days
- 2 Variation: Any variation in scope will be charged extra
- 3 Permits: All statutory permits to be obtained by client
- 4 Changes and Revision: Changes after GA approval will be charged
- 5 Inspection of Product: Client inspection at our factory
- 6 Erection Drawings: GA drawings will be submitted for approval
